Welcome to the new era of efficiency and performance.

Engineered for excellence. Driven by design.
Anthem is built to deliver the ultimate in
comfort, performance, efficiency and safety.

**Built for your
business.**

Boldly designed and engineered to deliver,
Anthem is helping our customers rethink exactly
how far their business can go.

Cab Configurations

70-Inch Stand Up Sleeper

With full-height roof fairing

70-Inch Stand Up Sleeper

Without roof fairing

48-Inch Flat Top Sleeper

With full-height roof fairing

48-Inch Flat Top Sleeper

With flat roof

Day Cab

With roof fairing

Day Cab

Without roof fairing

Aerodynamic never looked so Mack.

Anthem challenges the expectations of aerodynamic design with a bold look that dramatically improves efficiency up to 3%*.

*Compared to similar Mack Anthem® without HE engine and HE+ features.

Roof Fairings with Adjustable Trim Tab

Improves airflow from the cab to the trailer (70-inch Stand Up Sleeper only).

Hood Mirrors

Compared to tripod designs, our single support decreases wind resistance and folds on impact to prevent damage.

Hood & Fenders

Hood slope and fender design direct air over and around the trailer.

Covered Tow Loops

Cuts down on wind resistance to create a clean, polished look.

Air Dam

Shuttles air beneath the vehicle for less turbulence.

Close-Out Flange

Prevents airflow between hood and bumper by moving air around the cab.

Cab & Sleeper Side Fairings

Streamlined design improves performance by reducing drag around the cab.

Chassis Fairings

Creates a clean aerodynamic flow to push air around your chassis.

Drive Axle Fairings

Eliminates drag beneath the chassis to streamline performance.

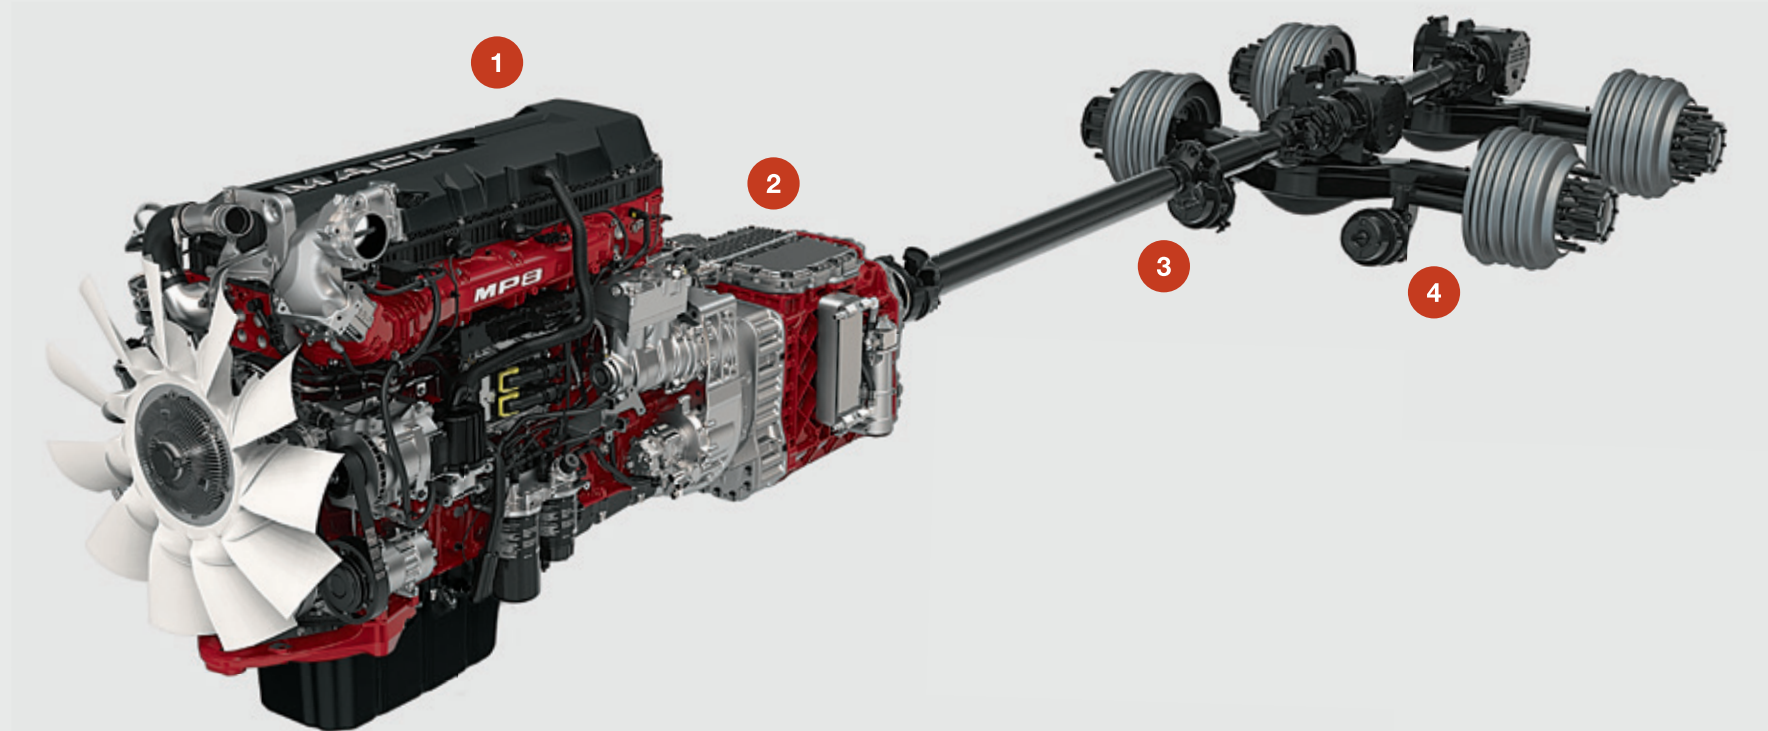

By displacing air to the sides, as well as over the hood and roof, Anthem cuts wind resistance and improves fuel economy. These aerodynamic fairings are at the core of the Mack HE+ Package, which arms an Anthem with the ultimate in fuel-efficient features.

Powered by Mack's integrated powertrain.

Engineered for efficiency and performance, and proudly assembled in Mack's Hagerstown, Maryland facility, our integrated powertrain is the toughest in the game. Bar none.

1. MP® Engines

With superior horsepower, torque and fuel economy, Mack's MP engines conquer the highway, mile after mile.

2. Mack Transmissions

Mack transmissions are designed to reduce driver fatigue, maximize uptime and perform in the most demanding conditions.

3. Mack Axles

Featuring multiple options including 4x2, 6x2p, 6x4 and 8x4 configurations, our axles outperform everywhere—from cross-country long hauls to on-road/off-road applications.

4. Mack Suspensions

Engineered to be lighter and stronger, for enhanced reliability and outstanding performance.

MP8

MP®8HE Engine

Featuring the latest innovations in Energy Recovery Technology (ERT), the Mack MP®8HE engine improves engine performance more efficiently than ever before.

ISX12N

Natural Gas Engine

The Cummins® Westport ISX12N brings a natural gas option for heavy-duty vehicles. It drives NOx emissions to near zero and brings up to 400 horsepower to demanding highway jobs. Mack offers factory-installed CNG tanks with an LNG option.

Energy Recovery Technology

The MP®8HE's ERT feature converts exhaust emissions to mechanical energy and delivers it back to the crankshaft as torque. This enables the engine to operate at 1,000–1,100 RPM, saving fuel without sacrificing performance.

Wave Piston Design

By adding small waves to the piston bowl, the engine can burn fuel more efficiently for reduced fuel consumption and lower emissions.

*m*DRIVE™

Mack's industry-leading automated manual transmission expands your driver base, reduces costs and delivers the smoothest shifting around.

Smarter Hauling

*m*DRIVE continuously monitors changes in grade, acceleration, vehicle weight and more to optimize fuel economy.

Minimal Service

Proven technology and superior design mean *m*DRIVE requires minimal service, significantly reducing maintenance costs and downtime.

Oversized Buttons

The manual shift buttons also allow experienced driver's to have control of shifting for precise performance in all conditions.

The ultimate in fuel efficiency.

The HE+Package combines an MP[®]8HE engine with distinctive aerodynamic and fuel economy features, like roof fairings and a sloped hood, to minimize drag, maximize profit and increase fuel efficiency up to 13.5%*.

HE+ Package Fuel Savings

Outfit your Anthem with the ultimate in fuel-efficient features.

$$\begin{aligned} & 3\% \text{ from enhanced aerodynamics} \\ & + 9.5\% \text{ from MP}^{\circledR}8\text{HE engine upgrade} \\ & 1\% \text{ from } m\text{DRIVE's Predictive Cruise} \\ \hline & = 13.5\% \text{ Fuel Economy Improvement}^* \end{aligned}$$

Save up to

2,700

Gallons
per year

That's nearly

\$10,800

Savings
per year**

*Compared to similar Mack Anthem[®] without HE engine and HE+ features.
**Using 20,000 gallons of fuel with an average fuel price of \$4.00 per gallon.

Built to last.

Anthem drives down operating costs with durability that stands up to the rigors of the road and keeps you out of the shop.

Breakaway Hood Mirrors

The mounts are spring-loaded to rotate when hit, preventing damage to the hood and lowering parts and repair costs.

Breakaway Side Mirrors

Strong hinges with zero plastic, tougher materials and spring-loaded mounts help keep maintenance costs down.

Durable Components

From bolts to latches, all Anthem components are made from tough, long-lasting materials.

Heated LED Lights

LED headlights are 66% brighter, last longer, use less energy and provide better visibility.

Smart Serviceability

The tilt-assist hood and functional, modular design allow service professionals to access, repair and replace components more quickly.

MP® Engine

Our engine compartment design enables easy access to components to help ease service operations and cut down on service times.

Single-Point Latch and Tilt Assist

Requires 50% less effort to open for easy access to the engine.

Level Check

All fluid checks and fills are visible and reachable from the ground for easy fill and daily checks.

3-Piece Hood

The 3 pieces are bonded together but can be separated and repaired individually for lower replacement costs.

3-Piece Bumper

The 3 pieces can be ordered as separate replacement parts for improved serviceability and lower repair costs.

Maximize your uptime with Mack.

Mack's exclusive uptime and productivity solutions combine intelligent software, predictive analytics, driver assist technologies and more to help you keep your trucks—and your business—moving forward.

Partner Integrations

Our open platform sends vehicle data directly to your own fleet management software for analysis, so you're not locked into a proprietary system.

Partners include:

Verizon Connect

Advanced fleet management and compliance tools that integrate directly with GuardDog® Connect or your own smartphone, tablet or other connected device.

Geotab®

Business intelligence and benchmarking data for older fleets to improve productivity, reduce fuel consumption, enhance driver safety and improve compliance.

Integrated Uptime Package

Harness the power of intelligent operating and maintenance systems that reduce repair times and streamline the service processes.

GuardDog® Connect

GuardDog Connect automatically monitors your truck's performance and quickly alerts OneCall of any maintenance or repair needs. OneCall's 24/7 support and roadside assistance leverages Mack ASIST to give drivers, dealers and Uptime Center staff access to all of the repair information they need—all while you're still on the road.

Over The Air (OTA) Software Updates

Wirelessly updates software without disrupting your schedules, while increasing operational efficiency and uptime. Requires GuardDog Connect.

OneCall®

The OneCall team provides 24/7 full-service support with a network of experts to keep you and your drivers ahead of any problem.

Mack ASIST

For repair coordination and communication, Mack ASIST assembles consistent, complete and professional estimates of service recommendations.

Driving Innovation

The trucking business is all about making margins and driving efficiency. Get the most out of your trucks and your drivers with built-in fuel management and driver assist technologies.

Mack Predictive Cruise

Proprietary Mack technology that stores hilly terrain in GPS data to optimize engine speed and fuel efficiency on saved routes.

Infotainment

Bluetooth cell phone integration, satellite radio, Apple CarPlay and back-up camera options to make life on the road as enjoyable as possible.

Bendix® Wingman® Fusion™ 2.0

Driver assist and safety technology combining radar, camera, brakes and alert systems via the SafetyDirect® web portal from the leader in collision mitigation.

Roll Stability

The Bendix ESP® full-stability system helps drivers mitigate rollovers and loss- of-control in situations on wet and dry roadways through advanced sensors and throttle and braking interventions.

Preventive Maintenance

Keep your trucks in top shape by planning a service schedule that matches the usage and miles of your vehicle, so we can repair or replace components before it impacts your business.

Drive productivity on every haul.

Mack Command Steer

Command Steer on the Mack Anthem combines world-class ergonomics and electronic-assist technology to deliver next-level handling and stability. Less strain on the driver, more productivity for your business.

The difference is in the drive.

By reducing driver effort up to 85%,
Command Steer can cut muscular
strain by up to 30% to reduce the risk
of long-term injury.

Steering Wheel Return-To-Zero

During parking, reversing and driving, the steering wheel automatically returns to zero, saving drivers from wear-related injuries.

Improved Directional Stability

Drivers no longer need to compensate for drifting caused by gusts of wind or banked roads while driving at highway speeds. The result is a steadier and more comfortable ride.

Feather-Light Steering At Low Speeds

By adding force to the power steering mechanism, trucks adapt to each situation. At low speed, steering is nearly effortless.

Smooths Rough Roads

Command Steer automatically detects and compensates for rough roads and job sites to help drivers keep a straight course and eliminate the need for constant driver correction.

Split Friction Stability

When steering and/or braking on surfaces with different friction, Command Steer improves stability and keeps the steering wheel straight and steady to reduce unwanted steering changes.

Reduces Deviations

Command Steer monitors road variations at nearly 2,000 times per second to help maintain directional stability on rough roads and in high winds for a more comfortable ride on every road.

How It Works

An electric motor is connected to the hydro-mechanical steering gear to provide additional torque. The motor is controlled through an ECU and receives signals from vehicle sensors while dampening steering impacts from the ground, helping the driver maintain the desired control.

Designed for the driver.

Anthem's cab design and driver environment are built around the way work gets done on the road, keeping drivers comfortable, safe and focused all day long.

Everything in Reach

The intuitive instrument panel and steering wheel of the Anthem give drivers total confidence and control in the cockpit.

Comfort For The Long Haul

A spacious interior and American craftsmanship give drivers the comfort they need to feel at home.

Utility From Top To Bottom

Configure Anthem's best-in-class storage for as much or as little as you need to store.

Control at your fingertips.

Built to work and designed with purpose, the automotive-inspired controls of Anthem make operation easy, safe and comfortable.

1. Information and Entertainment Display

7" touchscreen, along with smart steering wheel buttons, manages tools like SiriusXM®, Weather Band, TomTom truck navigation, Apple CarPlay and optional back-up camera.

2. D-Panel Gauges

Customize the dash with 4 optional auxiliary gauges.

3. Illuminated Controls

Keep eyes on the road with familiar, automotive-style controls.

4. Flat-Bottom Steering Wheel

An industry-first, allowing more belly room and clearance for entry or exit. Add to that a racecar-style grip, enhanced dash visibility and clipboard-friendly surface for better control and maximum comfort.

5. mDRIVE Controls

Intuitive placement—and the option to install it even higher on the dash—gives drivers comfortable access without taking eyes off the road.

6. Rocker Switches

New larger, robust rocker switches are laser etched to be readable for life

Power Window, Lock and Mirror Controls

Provide more comfort and control than manual windows.

Light Control Module

Runs all exterior lights from one place with an automotive feel.

Left Stalk

Manages high beams, self-canceling turn signals and wipers.

Right Stalk

Manages engine brake and Co-Pilot™.

Information at a glance. Eyes on the road.

Drivers manage constant demands on their attention. Our instrument panel brings important information to the forefront, keeping it clear and readable so drivers can stay focused on the road ahead.

1. Digital-Analog Gauges

Solid dial hands with the precision of digital instruments.

2. Mack Co-Pilot™

5" full-color digital display provides enhanced visibility and simpler navigation without distractions. Constant truck monitoring and Pre-Trip Assistant, including one-person Exterior Light Inspection, help keep an eye out for potential issues before they become real ones.

Unmatched comfort.

The spacious cab, stand up sleeper and premium materials of Mack Anthem create an interior that's as comfortable as it is functional.

Anthem's generous ceiling height lets drivers stand up in the cab and walk right through to the sleeper. Driver model shown at 5'10".

Mack-Exclusive Seats

We partnered with Sears Seating to build seats that improve driver comfort and support, while taking on daily wear and tear.

- Air suspension
- Optional swivel base
- 30+ feature and fabric combinations

Home away from home.

We built the Mack Anthem 70-inch Stand Up Sleeper with 35% more space to give drivers plenty of room to get comfortable, rest well and stay focused on the road.

Amenities

Opt for a spacious, stainless steel refrigerator or choose from prep kits—including power outlets—for a refrigerator, microwave or flat-screen TV. Add cup holders with integrated storage above the bottom bunk for easy access to everything.

Flexible Work Space

Versatile pull out surfaces behind the driver and passenger seats create a comfortable space for a meal or catching up on email.

Sleeper Lighting

Dimmable pipe light around the perimeter of the driver environment, bunk task light, reading lights and overhead lights are all bright, long-lasting LED.

Sleeper Windows

Sleeper windows feature self-contained built-in shades that block 100% of light. The screened windows tilt out to let air in and keep rain out.

Sleeper Control Panel

Access power outlets and USB ports and control the sleeper stereo, interior lighting and high-performing HVAC from one convenient panel. IdleFree® electric APU let's drivers run the HVAC system without idling, keeping fuel costs down.

Safe, secure storage.

Even on rough roads, electronics, drinks and gear stay in place with the industry-leading storage of Mack Anthem.

1. Front Overhead Console

Generous storage with tough materials, interior LED light controls and a dedicated CB radio box.

2. Side Overhead Cabinets

Deep storage areas above the driver and passenger doors create a secure space for gear in the 70-inch Stand Up Sleeper.

3. Non-Slip Electronics Tray

Charge electronics securely with the USB port, phone holder and non-slip rubber fuse relay center cover.

4. Additional Storage

Oversized cup holders fit large drinks and there's room for keys, devices and more in the easy-to-clean unit.

Everything in its place.

Anthem offers cabinets, work surfaces, wardrobes and shelving to keep the living space organized, functional and ready to work.

Under Bunk Storage

Illuminated, 3-compartment storage.

Bunk Wall Storage

Back wall cup holder and open storage bin or 3-cabinet overhead storage (single bunk only).

Driver Side Storage

Tall wardrobe cabinet with hanger bar, interior mirror and magazine slots.

Cabinet with shelves, drawer and pullout work surface.

Passenger Side Storage

Microwave cabinet, DVD/storage slot, top storage.

TV prep kit (up to 24" flat panel), mounting brackets, power outlet.

Drawer-style refrigerator and storage drawer.

Microwave, TV and refrigerator spaces are also available as cabinets.

Customize the interior of your Anthem 70-inch Sleeper.

Comfort Trim

Support at every turn.

Nearly 400 authorized dealers and parts and service locations coast to coast. Nearly 1,400 Master Technicians. When you need assistance, the Mack network is ready to deliver.

Certified Uptime Dealers

Average trucking industry dwell time for a repair is 4 days, but the average repair actually takes less than 4 hours. Mack's Certified Uptime Dealers identify the quick fixes and put them in the fast lane for completion, while giving larger repairs the attention they need.

Investing In Service

The Mack Dealer Network is committed to quick, quality service. That's why our dealers have invested nearly \$600 million since 2010 to modernize facilities, improve access to parts and train service professionals to help get you back on the road.

Family Experience

Whether you're behind the wheel or managing the fleet, when you run with Mack, you're part of the family. That means you'll always get personalized attention and the support you need. Just pick up the phone; there's always a real person ready at the other end of the line.

Mack OneCall®: 1-800-866-1177.
